

1.- Instructions for the use of electric vehicles: Ignite

The ignition of the Citroen C-Zero and Peugeot iOn is very quiet and fully automatic so the user must follow the instructions exactly.

- The gear lever is placed in position "P".

- To turn on, hold the key turned in the ignition until the end for 2 seconds, you will hear a sound and an indicator light will "READY". The vehicle is on.

- To start, depress the foot brake and release the parking brake. Far shift lever position "P" to "D" and go releasing the foot brake progressively, causing their movement was ahead.

2.- Instructions for the use of electric vehicles: Automatic changing gear

Citroën C-Zero and Peugeot iOn are fully automatic, both the gearshift and in its operation.

The shift lever has 4 positions:

- **"P"**: Parking position. Used to park the vehicle. If you want to remove the ignition key, it is only possible in that position.
- **"R"**: Position to get the vehicle moving backwards.
- **"N"**: Coasting of the vehicle.
- **"D"**: Position to get the vehicle moving it forward.

3.- Instructions for the use of electric vehicles: recharge the battery

Citroën C-Zero and Peugeot iOn has 2 charging modes: Standard (4-6 hours) and fast charge (30 minutes).

3.1.- Standard (4-6 hours):

Pull the flange toward you to open standard refill cap.

Said flange is positioned below the steering wheel, as shown in the image.

When the lid is open, select one of the charging cables that are in the trunk:

Cable for domestic charging
(household outlet)

Cable for charging in standard
charging stations

Connect to electricity and vehicle (regardless of order).

To confirm that the charge is in progress, an icon appears in the instrument cluster (red arrow)

You can check the status of the charge in the instrument cluster (green arrow).

Once the recharge (100%), unplug it, put it in the trunk and close the lid.

3.2.- Fast charge (30 minutes):

You need a fast charging point.

Pull up on the lever that opens the lid quick recharge.

Said lever is located at the lower side of the seat, as shown in the image.

You must use own hose quick charging point.

This device will ask you to identify and select the charge mode.

Fast charging point.
